Ben Walid general hospital

- **Rotating Internship:**

- General Medicine, General Surgery, Obstetrics & Gynaecology, Paediatrics, Community Medicine, Laboratory Medicine.

Tripoli University Teaching Hospitals.

- **Researches Which Were Published:**

1. Outcome of Posterior Urethral Valve in Libyan Children.
2. Erythropoietin Therapy of Anemia in Pre dialyzed Patients with Chronic Renal Failure
3. Spectrum of Idiopathic Nephrotic Syndrome in Children.
4. Steroid Dependent and Steroid Resistant Nephritic Syndrome, Treatment and Outcomes in Tripoli Children Hospital

5. Serum Leptin Concentration in Normal, Protein-Energy Malnourished and Obese Children
6. Insulin like Growth Factor-I in Children with Nephrotic Syndrome
7. The Effect of Prednisone Therapy on Serum Leptin Concentration in Children with Idiopathic Nephrotic Syndrome
8. The result of renal biopsy in children with Nephrotic syndrome
9. Nephrotic Syndrome In Libyan Children
10. Primary hyper oxaluria in children
11. A descriptive retrospective study on children with newly diagnosed Nephrotic syndrome presented to Tripoli Children Hospital during the period between Jan. to Dec. 2014
12. Epidemiology and Clinic pathologic Characteristics of Childhood Nephrotic Syndrome in LIBYA
13. Causes and Diagnostic Significance of Macroscopic-Hematuria in Children and Young Adults

▪ **Supervision on Some Researches:**

1. Pattern of Hyperoxaluria among Libyan Children.
2. Renal Hypertension in Children.
3. Genitourinary Disorder and Renal Complication.
4. Long-Term Effect of Chemotherapy in Children with Nephrotic Syndrome.
5. Causes of Chronic Renal Failure in Children.
6. Cyclophosphamide Therapy in Children with Steroid Dependent and Steroid Resistant Nephrotic Syndrome.
7. Etiology and Outcome of Children Presenting With Hematuria.
8. Atopy in Children with Idiopathic Nephrotic Syndrome.
9. Chronic Renal Failure in Children.
10. Urinary Tract Infection In Children With Vesicoureteral Reflux

11. Urinary Tract Infection In First Year Of Life
12. Relationship of idiopathic childhood nephrotic syndrome and allergy (at remission and during relapses).
13. Vesicoureteral Reflux and Renal Scarring in Infants and Children ≤ 5 years after the Urinary Tract Infection.
14. Risk Factors and Associated Anomalies in Patients with Neural Tube Defects (Experience of one centre /Ali Omer Asker Hospital).
15. Risk factors and associated anomalies in patients with neural tube defects delivered and outpatient visit in Ali Omer Asker hospital from 1-1-2019 to 31-12-2019
16. Effectiveness of rituximab among childhood nephrotic syndrome Patients in Tripoli Children's Hospital/ From 1st January2019 _31st December 2019
17. Effect of prednisolone on linear growth in children with nephrotic syndrome
18. Spectrum of Idiopathic Nephrotic Syndrome in Libyan Children
19. The Prevalence of isolated congenital hydrocephaly from total neural tube defect and its associated Risk Factors
20. An Overview of Idiopathic Nephrotic Syndrome in Children (Tripoli University Hospital)
21. Steroid effect on Serum leptin concentration in children with minimal change nephrotic syndrome
22. Complications and Outcome of Central Venous Catheter Insertion In Children With End-Stage Renal Disease Undergoing Haemodialysis In Libya
23. Effect of Hemodialysis on the Clinical Symptoms of Renal Osteodystrophy in Children with CKD
24. Overview of chronic kidney disease in children (Causes and outcomes)
25. Frequency of Intradialytic Complications in children of End-Stage Renal Disease on Maintenance Hemodialysis.
26. Thrombocytopenia in Neonatal Sepsis/Experience of one centre (Alzawia university hospital)

27. The value of renal ultrasound in children with a first episode of urinary tract infection in Tripoli_ Libya
28. Cardiovascular risks in chronic kidney disease paediatric patients
29. Leptin hormone in obese children: a comparative study
30. Uncontrolled hypertension in hemodialysed children (causes and risk factors).September 2022
31. Risk factors of end stage chronic kidney disease in focal segmental glomerulosclerosis nephrotic syndrome children November 2022

Scientific sessions::

- Training course (Intellectual Education and Neurology for Special Needs Medicine, April 1999)
- Training course (Hadith on endocrinology in children) Alexandria University, Faculty of Human Medicine, and May 1999.
- Training course (pediatrics), the Egyptian Society of Pediatrics, July 1999.
